

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

Welcome to Naples.

International Students Guide

Academic Year 2022/2023

In the heart of Naples

Studying at Parthenope University, in Naples, will be the most exciting experience of your life.

There is a very strict relationship between Parthenope University and the City of Naples, a relationship that has lasted now for over one hundred years.

They have in common the ability to interact with a multifaceted and ever-changing social context and create outstanding cultural and creative surroundings. This makes them one of the most inspiring environments where students and academics can study and live in Europe.

Not only Parthenope University offers a cutting-edge academic education but it gives also the chance to enjoy a one-of-a-kind cultural and social environment because Naples is more than a city, it is a life experience that will become part of each student's life story.

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

A colorful cosmopolitan city

Wonder of wonders, Naples is a city overflowing with arts, culture, and history. It is one-of-a-kind city that mixes sacred and profane and lives of mysteries and miracles.

From the naturalistic beauties like the Vesuvius, the Islands of Capri, Procida and Ischia, Posillipo, the volcanic area of Campi Flegrei, once considered the gates of Hades.

While taking a stroll in the dire straits of the old town you can feel that the immeasurable artistic heritage is everywhere in its historic quarters and covers every single century and art style of human history.

The Royal Palace, the San Carlo's theatre, the National Museum of Naples, the Cristo Velato, the San Severo Chapel, the San Gennaro's Cathedral, the Maschio Angioino, Castel dell 'Ovo, Piazza del Plebiscito, Spaccanapoli, San Gregorio armeno, Napoli sotterranea, San Gennaro's Catacombs, the Toledo art station, the cemetery of Fontanelle, the Posillipo terrace, are only few of the wonders of Naples.

To understand what Naples is really about, you have to walk by its streets, be surrounded by its background noise, hear the voices of people, feel the vibes of the most cosmopolitan and colorful Italian city.

Take the incredible chance to study in Naples, discover the museum of life.

See Naples, Feel Naples, you will never be so alive.

PAR THENOPE UNIVERSITY OF N
APLES

Premises

Classrooms and offices are located in four different buildings in the heart of the city. The area is surrounded by the most attractive urban neighborhoods and boulevards such as Molo Beverello, Monte di Dio and via Medina.

It includes administration offices and seven departments that are strategically located in the center of the city. Some of the offices are also located in the eastern area of Naples.

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

Via Acton

The headquarters at 38 Via Ammiraglio Ferdinando Acton is hosted in a beautiful historical building called “Palazzina Spagnola”, dating back to the 16th century. Close to it, a modern building hosts some classes of the Department of Movement Sciences and Wellbeing.

Palazzo Pacanowski

Palazzo Pacanowski is located in Naples at 13 Via Generale Parisi. It hosts the School of Economics and Law and the following Departments:

- *Department of Law*
- *Department of Business and Economics*
- *Department of Management and Quantitative Studies*
- *Department of Economics and Legal Studies*

Centro Direzionale

At Centro Direzionale, Isola (Block) C4 are located the following Departments:

- *Department of Engineering*
- *Department of Science and Technology*

Via Medina

In Via Medina, not far from Piazza Municipio, there are some of the offices of the

- *Department of Movement Sciences and Wellbeing*

VILLA DORIA D'ANGRI

Prestigious Neoclassical building

Villa Doria D'Angri is a prestigious neoclassical building, dating from 1833 built by will of the Prince Marcantonio Doria d'Angri. The architecture situated on the hill of Posillipo is based on the concept of the mixture between architecture and its surrounding landscape, for this reason the Villa is included in the rock.

The enchanting terrace surrounding the whole structure, the fine portico adorned with Ionic columns, the gardens, the fountains, the fine Pompeian ornaments, the mirrors and the *majolicas* will be the frame of a learning experience that aims at expanding your horizons and perspectives.

Naval Museum

The naval museum is located in Villa Doria d'Angri. It contains a rich collection of ship models and sea navigation tools from the past. The oldest ones, dating back to 1920, the year of foundation of the Institute.

The collection is part of the university heritage and marks its significant historical and scientific value. Moreover, it is even today a valuable learning tool for students in nautical studies and a resource to spread the maritime and nautical culture.

PARTHENOPE UNIVERSITY OF N
APLES

Mission

Since its foundation, there is one distinctive trait of Parthenope University that has remained unchanged and has become its most valuable feature, the ability to deal with the challenges of an ever-changing world and with new pressing societal needs.

The academic institution strives every day to ensure excellence across a wide range of disciplines and to create an inclusive, inspiring, and vibrant environment where students and academics can flourish sharing ideas and expertise.

Parthenope's research activity is in line with the ERC domains. Its main purpose is the development of innovative solutions and insights for the betterment of society, for the creation, dissemination, preservation, and application of knowledge.

All departments are committed to presenting projects and activities aimed to spread the latest findings in technology and research in a context of increasing domestic and international academic competitiveness.

The collaboration with other leading research institutes worldwide promotes knowledge exchange and fosters the creation of a global network in the scholarly community.

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

The lines of research are intended to promote experimentation, to implement industrial application, to develop significant relationships among sectors of production, labor market, public and private sector organizations.

The Statute defines the main governing, statutory and regulatory bodies of the University. The Rector is the legal representative of the University.

KNOW THE INSTITUTION

Student Government and University Councils

Our Institutions and bodies
to support students

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

Academic Senate and Council

The Academic Senate is a collective body in charge of planning, coordinating, and monitoring the university's teaching and research activities, as well as defining its policies and strategies.

Board of Directors

The Board of Directors is in charge of leading and monitoring activities related to the administrative, financial and economic management of the university.

Student Council

Student Council is a representative organization, whose primary aim is to represent and defend the interests of the collective student body.

It provides mandatory advice to the Academic Senate on university development plans, budget, fees and grants, teaching organization and regulations.

The Student Council remains in office for two years.

Audit Committee

The Audit Committee is responsible for monitoring the university's financial and accounting management. The tasks and modes of operation of the Audit Committee are coded by administrative, financial, and accounting regulations.

Assessment Committee

The Assessment Committee is responsible for internal quality assessment of the university administration, teaching and research activities and students' benefits (such as scholarships) and services.

Unique Guarantee Committee

The “Comitato Unico di Garanzia” (CUG) is a committee (a new body established pursuant to art. 21 of Law 183, 4 November 2010) for equal opportunities. The CUG protects employees’ rights. It is a guaranteed body that operates against any form of direct or indirect discrimination related to the risk factors mentioned in the EU regulations: gender, age, sexual orientation, ethnic origin, disability and language. It covers a multitude of areas, including access to treatment and working conditions, training, career progression and safety.

Educational Offer

Our university has seven departments and offers a wide range of Bachelor’s, Master’s degree, extension certificates, postgraduate and specialization programs in the following areas of studies: Economics and Enterprise Management Studies, Law and Administrative Sciences Studies, Engineering Studies, Sports Sciences Studies.

List of Departments

- Law Department
- Engineering Department
- Science and Technology Department
- Movement sciences and wellbeing
- Management and Quantitative Studies Department
- Business and Economics Department
- Economics and Legal Studies Department
- Inter-departmental School of Economics and Law

You can find all the information about every single study program at link:

<https://international.uniparthenope.it/>

STUDY PROGRAMS

Educational offer for Areas of Study

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

AREA OF STUDY

Economics and Enterprise Management Studies

Involved Departments:

- Business and Quantitative Studies Department
- Business and Economics Department
- Economics and Legal Studies Department
- Inter-departmental School of Economics and Law

This area of study aims at providing a highly marketable education in the fields of Economics, Business, Management, Mathematics, Statistics and Finance.

Bachelor's degrees

- Business Administration
- Economics and Business
- Economics and Management
- International Business Management
- Tourism Business Management
- Statistics and Information Technology for Business, Finance and Insurance

Master's degrees

- Administration, Finance and Business Consulting
- Maritime Economy
- Fashion, Art and Food Management
- Marketing and International Management
- Quantitative Methods for Economic and Financial Evaluations
- Economics, Financial and International Sciences

AREA OF STUDY

Law and Administrative Science Studies

Involved Departments:

- Law Department
- Economics and Legal Studies Department
- Inter-departmental School of Economics and Law

This area of study is a one-of-a-kind in Italy thanks to its interdisciplinary learning offer, combining law sciences with administration and management studies.

Bachelor's + Master's degrees program

- Science in Law (Master of Science in Law 5-year program)

Bachelor's degrees

- Sciences of Administration, Organization and Labor Consulting

Master's degrees

- Public Management

AREA OF STUDY

Engineering Studies

Involved Departments:

- Engineering Department

This area of study offers study programs in Industrial Engineering, Civil and Environmental Engineering, Computer Science, and Information technology.

Bachelor's degrees

- Civil and Environmental Engineering for Hazard Mitigation
- Information, Biomedical and Telecommunications Engineering

Master's degrees

- Civil Engineering and Coastal Environment Protection Engineering
- Data and Communication Security Engineering
- Management Engineering

AREA OF STUDY

Science and Technology Studies

Involved Departments:

- Engineering Department
- Science and Technology Department

This area of study offers degrees as Nautical and Aeronautical sciences, Meteo-Oceanographic and Climate sciences, Information and Biological Sciences that are part of the historical heritage of Parthenope University. These programs are empowered by the most innovative learning approach and state-of-the-art technology tools.

Bachelor's degrees

- Ship Management
- Computer Science
- Biological Sciences
- Nautical, Aeronautical and Meteo-Oceanographic Sciences

Master's degrees

- Biology for Sustainability
- Applied Computing (Machine Learning and Big Data)
- Navigation Science and Technologies

Sport Science Studies

Involved Departments:

- Movement sciences and wellbeing

This area of study offers bachelor's and master's degrees highly marketable in the field of health-fitness and also in that of sports management.

Bachelor's degrees

- Human Movement Sciences

Master's degrees

- Design of Educational and Training Services, Media Education and Technologies for Inclusion in Formal and Non-Formal Contexts in collaboration with the University of Salerno
- Science and Management of Sport and Movement Activities
- Movement Sciences for Prevention and Wellness

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

GET A DOCTORATE

PhD programs at Parthenope

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

PhD Opportunities

Our university offers several PhD opportunities. For each of them at least one scholarship is reserved for foreign students.

The minimal requirement a candidate must provide to apply for a doctoral program is a master's degree qualification.

All candidates will take a written test aimed at assessing their aptitude for scientific research and an interview on the project they intend to work on. Every candidate must know at least one foreign language.

In the admission process strong consideration is given to candidates' background.

Additional academic qualifications, research experience, articles or other kinds of academic publication in the candidate's previous academic career will be taken into consideration.

A call for applications is published every year during summer.

PhD programs' admission committees develop a ranking list of candidates, which descends in merit order until allocable places are exhausted.

Scholarships are funded by the M.I.U.R. (the Italian Ministry of Education, University and Research), Parthenope University, the Departments, and national or international public and private companies.

Additional positions – financially covered by research grants, contracts or scholarships offered by third parties – may also be available.

The PhD is awarded after candidates pass a final examination consisting of a public defence of the doctoral thesis. The defence may also be carried out in a foreign language.

The PhD programs offered by Parthenope University are a major asset for careers in academia or in industrial research facilities, both in Italy and abroad. All programs have a strong interdisciplinary and cultural character. Exchanges, workshops, seminars, and events organized in collaboration with other universities in Europe and in the United States are strongly encouraged.

Each of the seven departments promotes the spreading and the exchange of new research results and technologies not only among the scholar and university community but also among corporates and institutions.

PHD OPPORTUNITIES

You can find all the information about how to apply and every PhDs program at:

<https://international.uniparthenope.it/phd/>

PhDs in Economics and Enterprise Management Studies:

- Economics, statistic, and Sustainability
- Economics, Management and Accounting
- Entrepreneurship and Innovation
- Euro(pean) Languages and Specialized Terminologies

PhDs in Law and Administrative Sciences Studies:

- Law and Socio-economic Institutions: regulatory, organizational and historical evolutionary patterns
- Service sector regulation in the Italian and European Legal System

PhDs in Engineering Studies:

- Energy Science and Engineering
- Environmental phenomena and risks (in collaboration with Science and Technology Department)
- Information and Communication Technology and Engineering

PhDs in Science and Technology Studies:

- Environmental Phenomena and Risks
(in collaboration with the Engineering Department)
- Environment, Resources, and Sustainable Development

PhDs in Sports Sciences Studies:

- Sport Science and Physical Activities

POST GRADUATE OFFER

Postgraduate certificates and specialization programs

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

Parthenope University offers postgraduate certificates and specialization programs for undergraduates, graduates and professionals.

Postgraduate certificates and specialization programs are designed for students who have earned a bachelor's or a master's degree and want to acquire advanced skills in a specific field of study.

Postgraduate Certificates and specialization programs are ideal for people who already have work experience and want to advance their careers.

In Italy two types of programs of this kind are available. They are called “Master of first level” and “Master of second level”.

A minimum of a bachelor's is needed to join a “Master of first level” while a minimum of a master's is needed to join a “Master of second-level”.

POST GRADUATE PROGRAMS

Master in Entrepreneurship and innovation management - MEIM

IN COLLABORATION WITH
MIT MANAGEMENT
SLOAN SCHOOL

Master in Entrepreneurship and innovation management - MEIM

MEIM - is a specific program offered by Parthenope University in collaboration with MIT Sloan, the business school of Massachusetts Institute of technology in Cambridge (USA).

It is a two terms program that provides a higher level of professional competence in Strategic Management & Entrepreneurship, focusing on subjects like Entrepreneurship, Innovation management, Business Model Design, Digital and International Strategies.

The program gives students the opportunity to join part of the classes in Cambridge at MIT. International professors from MIT and other renowned universities, will be working alongside the professors at Parthenope University on-site in Naples.

KNOW MORE ABOUT THIS PROGRAM: <https://meim.uniparthenope.it/>

Other Postgraduate Certificate

You can find all the information about every single Postgraduate certificates and specialization programs at link:

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

STUDYING ABROAD

Parthenope Double degrees and Erasmus Plus program

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

Double Degree

As a Parthenope student you will have the opportunity to join Double degree programs. Our Double Degrees allow students to earn a bachelor's or master's degree, in the same subject area, from an academic institute abroad.

With our Double Degree programs you'll spend the most part of your student's career at Parthenope and at least one semester at another world class international institution, resulting in two Bachelor/Master degrees. We currently offer Double Degree options with many European and overseas countries.

Erasmus+ Program

If your university has a bilateral agreement with the Parthenope University and you wish to join the Erasmus+ program, you can apply for it through your home university.

Parthenope University strives every year to give each Erasmus+ student the most joyful and inspiring experience.

Our Erasmus students can visit the International Programs Office to find help and support for every bureaucratic need or issue. Moreover, each department has an Erasmus+ Coordinator.

The International Programs Office is in the headquarters at 38, Via Ammiraglio Ferdinando Acton.

PARTHENOPE BUILDS THE FUTURE

Research Projects

Our research projects are meant to understand and solve complex scientific and societal challenges and to improve welfare and prosperity of the global community.

Our researchers struggle every day to reach results that are always more and more thorough, accurate and beneficial, providing researchers with access to state of the art scientific instrumentation with the intent to keep Parthenope's scientific research at the cutting edge.

Moreover, as an academic institute we are committed in the creation of an environment that fosters and values professional and personal growth for the scholar community.

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

Parthenope's research activity is focused on the following main topics of the ERC domains.

Social Studies

Economics, Finance and Management, Sociology, Political Science, Law, Social Studies of Science and Technology, Environmental Studies, Urban and Regional Studies, Psychology, Philosophy and Education, Literature, Visual and Performing Arts, Music, Archaeology, Cultural and Comparative Studies, History.

Physical Sciences and Engineering

Mathematics, Constituents of Matter, Physics, Analytical Chemistry, Informatics, Communication Engineering, Energy Processes Engineering, Universe Sciences.

Life Sciences

Biology and Biochemistry, Genetics, Genomics, Bioinformatics, Cellular Biology, Physiology, Pathophysiology, Endocrinology, Neurosciences, Immunity and Infection, Diagnostic Tools, Therapies and Public Health, Environmental Biology, Applied Life Sciences, Biotechnology.

Each one of the seven departments promotes the spreading and the exchange of new research results and technologies not only among the scholar and university community but also among corporates and institutions.

The institute encourages domestic and international collaboration among scholars.

You can find all the academic research projects on website:

<https://international.uniparthenope.it/international-research/>

Mission to Antarctica for the National Antarctic Research Program

At the very beginning of 2020 our university was involved in a very important research project, the 35th expedition in Antarctica for the National Antarctic Research Program (PRNA).

The expedition was directed by CNR (National Research Council) jointly with ENEA (National Agency for New Technologies, Energy and Sustainable Economic Development) and supported by MIUR (Ministry of Education, University and Research).

Our researchers Yuri Cotroneo, Pasquale Castagno, Arturo del Alteris, Giovanni Zambardino, Naomi Krauzig and the professor Pierpaolo Falco, with their colleagues from the Universities of Genova, Bologna and the CNR, on board the icebreaker “Laura Bassi”, after a first stop in Singapore, reached Christchurch in New Zealand and from there Antarctica.

For over 30 years Parthenope University has been involved in a project called MORSea -*Marine Observatory in the Ross Sea*, funded by PNRA, in the framework of CLIMA- *Climatic Long-term Interaction for Mass balance in Antarctica* and ABIOCLEAR- Antarctic BIOgeochemical cycles-Climatic and palEoclimAtic Reconstructions projects.

In 1994 MORSea installed a network of four moorings, a collection of devices connected to a wire and anchored on the seafloor to measure ocean currents. The moorings play an important role in the study of climate change and the interannual variability of the physical and biogeochemical processes in the water column.

The surveys, held by using moorings, went on for two months. The mission ended on the 21st of February 2021.

Apple iOS Foundation Program

Since 2016, our University and Apple Distribution International have carried on an academic program on iOS development.

The aim is to provide students with specific programming skills in the iOS environment.

Lessons take place at Villa Doria D'Angri, where a high-tech laboratory has been equipped with the latest Apple hardware and software tools, study rooms and rooms for lifelong learning.

Each class is made up of a maximum of 30 students.

For the entire duration of the course each student is provided with a last-generation MacBook, an iPhone and several other devices (iWatch, AppleTV, drones, robots) that might be useful to create and develop prototype applications (“Apps”) iOS, tvOS and/or watchOS, potentially valid for distribution in App Store or for the creation of startups.

Each year, the program offers 300 students the chance to choose among 14 courses designed in collaboration with Apple, 10 basic courses and 4 advanced courses, each one lasting four weeks.

All the students who actively attend courses and are positively assessed when submitting their app to the Apple team are granted an attendance certificate. Students from the University of Naples Parthenope may be eligible for training credits for their university career.

Further information is available on the iOS Foundation Program website
www.iosdeveloperacademy.uniparthenope.it/

UNESCO Chair in "Environment, Resources and Sustainable Development"

In the centenary of its foundation, Parthenope University of Naples receives a prestigious international award: the UNESCO Chair in “Environment, Resources and Sustainable Development”

(www.unescochair.uniparthenope.it).

The UNESCO Chair has been established after a decade of active scientific collaboration with the UNESCO Headquarters of Paris, with the Division of Ecology and Earth Sciences, the Secretariat of the Man and the Biosphere Programme, and the Intergovernmental Oceanographic Commission.

The UNESCO Chair, conferred to the homonymous International PhD Program hosted at the Department of Science and Technology, is coordinated by Prof. Pier Paolo Franzese and is based in the monumental Villa Doria d’Angri, historical representative venue of Parthenope University.

The UNESCO Chair is designed to be a center of excellence in the fields of environmental sciences, ecology and nature conservation, and sustainable development. The specific objectives of the Chair will be achieved through scientific research, teaching, and dissemination activities focused on two main priority targets:

- 1) the achievement of the 2030 Agenda United Nations Sustainable Development Goals (SDGs);
- 2) the implementation of sustainable development models in UNESCO Biosphere Reserves, living laboratories where to pursue objectives of nature conservation and socio-economic development.

The UNESCO Chair benefits from a strong partnership including more than 20 national and international institutions, among which: European and international universities located in four different continents, UNESCO-MAB Biosphere Reserves, national and international research centers (CNR, CREA, CIHEAM), the Italian Society of Ecology (SIte), The Italian Society of Marine Biology, the National Interuniversity Consortium for Marine Sciences (CoNISMa), the Italian National Order of Biologists, and trade associations such as ASMEL and Coldiretti.

Through networks with different stakeholders and interuniversity cooperation, the UNESCO Chair will contribute to study and solve local and global environmental problems connected to the complex human-nature interactions. The UNESCO Chair will represent an important asset for the transfer of know-how and the scientific support to students, researchers, citizens, managers, and policy makers.

Master in Entrepreneurship and Innovation Management in collaboration with MIT Sloan School of Management (Cambridge-USA)

**Massachusetts
Institute of
Technology**

The MIT Sloan School of Management recently announced a five-year agreement with Parthenope University of Naples for a strategic collaboration supporting Parthenope's new Master in Entrepreneurship and Innovation Management (MEIM).

MEIM – Master in Entrepreneurship and Innovation Management is a 12-month full-time study program, born from a collaboration between Parthenope University and the MIT Sloan School of Management, the business school of the Massachusetts Institute of Technology (MIT), Cambridge – USA.

The new 12-month master's program includes a three-week immersion on the MIT campus.

In 2021, MIT was ranked the world's top university by QS World University Rankings. www.topuniversities.com/qs-world-university-rankings

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

The two-terms program provides a higher level of professional competence in Entrepreneurship and Innovation Management, giving you the chance to attend classes at MIT Sloan during a three-week on-campus visit. The educational style offered means to build competencies in the field of entrepreneurial leadership, focusing on subjects like value creation, soft skills acquisition, business model design and disruptive innovation

The Parthenope MEIM program is designed to help students develop managerial, entrepreneurial, and technological skills to innovate and overcome challenges of an increasingly complex economy. During their immersion at MIT, their students will participate in classes, company visits, and cultural activities.

SEA-EU

European University of the Sea

The European University of the Seas, SEA-EU, began its journey in 2019 thanks to the Erasmus+ European Universities initiative. Until now it has been made up of 6 universities: the University of Cadiz, coordinator of the Alliance, the University of Western Brittany, the University of Kiel, the University of Gdansk, the University of Split, and the University of Malta.

The University of Parthenope, in Naples (Italy), the University of Algarve (Portugal) and Nord University in Bodo (Norway), complete a map of coastal universities which share with all the members of the Alliance a vocation for sustainability, inclusion and innovation.

SEA-EU aims at establishing a distinctly international, pluri-ethnic, multilingual, and

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

interdisciplinary European University. This vision is rooted in the high quality and excellence in education and research of the alliance with the intent to strengthen the links between teaching, research, innovation and knowledge transfer. The convergence of media and digitalization has changed the way we work and live. Change, going forward, will continue to be rapid, in a world of perpetual connectivity. Consequently, traditional training models are being found wanting. Developing both critical-thinking and creativity with students is key. The vision is to build a consortium: to create the conditions in which a student will be able to freely and confidently move between disciplines, languages, countries, sectors. Seamless mobility across borders and academic disciplines will provide a substantial leap in quality, performance, attractiveness, and international competitiveness. Partners work to make the alliance a universe of possibilities, in which each student will be free but guided to seek out and develop their own path.

SEA-EU will engage in concerted efforts towards building an inclusive, sustainable, and resilient future for people and planet, with the specific vocation of dealing with the sea that unites all universities of the alliance.

SEA-EU actively fosters an entrepreneurial, ownership-taking, mind-set, supporting green/blue growth and sustainability by developing innovative pedagogies and promote the latest digital technologies to deliver personalized content, enable knowledge sharing, foster competitive skills, and promote open science.

The main thrust and connecting medium of this consortium is the sea. SEA-EU will encourage excellence in research to gain more knowledge and a better understanding and management of the marine environment. It will assist in building the human resources and skills necessary to match the needs of the evolving marine and maritime sectors, now and in the foreseeable future. It will provide and improve tools and techniques to measure and anticipate ocean based and driven impacts. It will build frameworks for more effective ocean governance.

UNIPARTHENOPE DAY BY DAY

Life at Parthenope

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

Facilities

Student Residences

The University of Naples Parthenope provides students with residential services. The residence hall, located in a recently refurbished loft building, the “ex Manifattura Tabacchi” in via Galileo Ferraris, comprises 180 rooms, single or double. 12 rooms are equipped and reserved for students with physical or sensory disabilities.

All rooms are comfortable and cozy. Both rooms and shared living spaces are equipped with modern appliances and contemporary decorations.

The ground floor includes an entrance hall, a cycle parking and bike racks, a gym, a canteen, and a laundry room.

On the mezzanine floor students can chill, relax, and enjoy the likes of music, Internet, games, TV and meeting rooms.

A large open space can be divided into individual study rooms using mobile partition panels.

Library

The University library was founded in 1920, the same year of the Royal Naval Institute.

The main premises of the library are located on the ground floor of Palazzina Spagnola, at 38 Via Acton, additional ones are located at the Centro Direzionale and contain mainly volumes about subjects such as engineering, science and technology.

The library supports all teaching and research activities carried out at the university, and its collections, catalogues, organization, and services characterize its evolving and constantly updated profile.

It provides students, faculty members and technical and administrative staff of the University of Naples Parthenope with resources that can be easily accessed during regular office hours.

Our library includes approximately 60,000 printed volumes and 14,000 online volumes concerning each area of study of the educational offer law, economics, engineering, science and technology and sports science. Moreover, several multidisciplinary databases are available.

The library also contains a renowned and precious collection of ancient books, known as the “Bourbon collection” made of approximately 4,000 volumes. The original core volumes of this collection were brought by the Bourbon Royal Navy for the education of Navy officer cadets.

Language Courses

Parthenope University offers its International students a free three-months Italian language course. The course aims to give students a level of spoken and written Italian B2 CEFR level.

Canteen and dining services

Canteen facilities offer a variety of dining options for students, faculty, and staff. We have canteen facilities conveniently located nearby each of our premises. All meals are buffet style. Meal price depends on your personal income.

The canteen located in Palazzo Pacanowski at 13 of Via G. Parisi offers the traditional Neapolitan wood-fired pizza every day.

Wifi

International students and researchers will have access to university free Wi-Fi and network facilities using their home institutions credentials thanks to EDUROAM, a secure wireless access service.

MOBILITY AND TRANSPORT

Getting around Naples

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

Transport

You can reach all the premises of Parthenope University with the bus, train, or subway. To travel throughout the regional territory for the whole academic year you can get an annual subscription to Unico Campania.

The annual subscription is a travel name card with microchip and photo. The travel document is valid for 12 consecutive months and starts from the 1st of the month following the request.

There are two different kinds of subscriptions:

- **the full card** (UNA, UAV, UBN, UCE, USA) which allows you to travel within the urban and suburban area of reference;
- **the urban card** which allows you to travel from and to Naples ((NA1, NA2; NA3 etc.). This type of subscription provides a division into 14 kilometer-based classes according to the distance to be traveled.
- **the suburban card** which allows you to travel just between municipalities other than Naples (AC1, AC2, AC3, etc). This type of subscription provides a division into 16 kilometer-based classes according to the distance to be traveled.

For other information, you can find it all on the [unico.campania](https://www.unicocampania.it/) website:

<https://www.unicocampania.it/>

Driving

EU citizens:

If your driving license was obtained in a European country, you have the right to drive in Italy whilst respecting the Italian road code of course.

Non-EU citizens:

If you have a non-European driving license and you are settling in Italy, you have the right to use your license for one year maximum after the date of arrival in your main residence in Italy. The driving license must be accompanied by an international driving permit.

USEFUL TIPS

Before leaving home

UNIVERSITÀ DEGLI STUDI DI NAPOLI
PARTHENOPE

How to enroll

Are you an international student? Welcome to University Parthenope! Here, you will find all the information about your enrollment. Please follow the next steps and check which documents you need to complete your application.

Do the Pre-enrollment on University

www.universitaly.it

Pre-enrollment must be submitted through the online platform UNIVERSITALY.

Online pre-enrolment is mandatory for all non-EU students living abroad.

Please note that pre-enrolment alone does not ensure admission to our degree programs. In order to matriculate you also need to take and pass the verifications of the entry requirements and the admission procedures set for the degree program of your interest.

Before starting an enrollment procedure, we strongly suggest finding out more about degree programs (undergraduate and graduate) on our website.

Courses will start in September (first semester) of each academic year and are half-yearly.

Download our short guide to Pre-enrollment
(And read all about required documents and deadlines)

<https://international.uniparthenope.it/how-to-enrol/>

Language Requirements

Italian language skills are mandatory for enrolling at the University of Naples Parthenope for the courses held in Italian.

If you have an Italian high school diploma (obtained in Italy or abroad), a B2 (CEFR) or higher-level certification of Italian language issued by one of the members of the CLIQ (Quality Certification of the Italian Language), you are not required to sit for the Italian Language exam, simply upload the certificate as a required document.

If you already have an A2/B1 level of Italian language, you can attend one of our free online courses reserved for prospective students.

Courses held in English

Students who want to have access to our university courses held in English, must provide an internationally recognized English-language certification.

Apply for a Visa

If the University of Naples Parthenope will accept your application, the secretariat will upload the acceptance letter (the so called “Modello D”) on the University website directly while validating your pre-enrolment application.

After the acceptance, students are strongly recommended to schedule the appointment at the Embassy/Consulate for the VISA application.

Tuition Fees

Each year University Parthenope sets the amounts of tuition fees to sustain apart of the cost of services (classes, laboratories, general services) dedicated to the students. The amount of tuition fees is not constant and invariant as it depends upon several factors. Tuition fees for EU and non-EU students are graduated according to the principles of fairness, solidarity, and progressivity.

They depend on the students' family income to guarantee the right to education and to the highest levels of study and to reduce the university drop-out rate. Please note that tuition fees do not include accommodation and books.

Know more about tuition fees and deadlines <https://international.uniparthenope.it/tuition-fees-and-scholarships/>

Scholarships

In order to promote and sustain international recruitment, and to support outstanding achievement, the University of Naples Parthenope is pleased to offer a number of scholarships and exemption from the payment of tuition fee(except for the regional taxes) reserved to non-EU prospective students living abroad.
